PROFILE SUMMARY

Software Engineer & Web Developer with expertise in Frontend Development, React.js, Next.js, SEO, and AI-driven solutions. Passionate about performance optimization and user experience. Successfully developed a full-featured e-commerce website using React.js and built an end-to-end social media web application using Next.js, showcasing strong problem-solving skills and a deep understanding of modern web architecture.

WORK EXPERIENCE

Route Academy

Full Diploma in Web Development

- Earned a Full Diploma in Web Development, specializing in Frontend Development. Acquired hands-on experience with HTML5, CSS3, JavaScript (ES6+), React.js, and Next.js. Focused on building responsive, user-friendly interfaces with strong attention to UI/UX and SEO fundamentals. Gained solid experience in handling RESTful APIs and optimizing website performance. Worked on multiple real-world tasks and projects, which enhanced my problem-solving skills and deepened my understanding of web architecture and best practices.

Elzero Web School

Diverse Experiences

- Studied through Elzero Web School, building strong skills in HTML, CSS, JavaScript, and frontend tools like SASS, Bootstrap, and basic TypeScript. The hands-on projects helped me improve in responsive design, working with the DOM, and using Git & GitHub. The content provided clear explanations and real-world examples that supported my practical development journey.

Key Projects

- speed and efficiency
- Built a full e-commerce website using React.js, including dynamic product display, cart functionality, and responsive design..
